The report of the Commissioners to examine into the condition of the State prisons, was received.

Mr. Hrooks gave notice of the bill to incorporate the Pec ple's Joint Stock Navigation Company.

Mr. Prant, from the Committee on Commerce, reported on the resolution in regard to the improvement of the navigation of the Hudson river. The report is lengthy, and appended thereto are letters from Major Delafield, of the Urited States Corps of Engineers, having the government work upon the river in charge, and Isaa Newton. Esq., in reply to interrogatory letters addressed to them by the sommittee. The report briefly recapitulates the difficulties and obstructions to the navigation of the Hudson, mainly are ing from the action of the freshess and the tides upon the sand hottom, the ice dams in the winter, and the spread of the river over a very wide surface at oliferent points. From these causes shoals and bars exist, which render the river, in places, at low water, unravigable even with boats adapted to the enlarged canal. The report reviews the former appropriations of the river, and their use. The State appropriation of \$150,000 in 1797 was thrown away, for the most part, in the erection of wing dams, which only change the locality of bars, and do not remove them. The Congressional appropriations of \$70,000 in 1831, and between that period and 1830, of \$250,000, were more effective, and under the direction of skilful engineers, the depth of water on the shoals was increased by four to six feet, and the navigation was better than ever before known. But the appropriations being discontinued, the work was suspended, until in 1852 the bars had again formed and the obstructions became serious. From 1845 to 1852, the cities of Albany and Iroy and the State had made appropriations which were of much temporary be neff. In the latter year, Congress appropriate \$50,000 to the improvement of the river is but all laik in that grant that he work the losses which annuall

Mr. BLAYCHOOL called up the resolution to elect a United States Senator on the 6th of February.

Mr. PRITT moved that it be laid on the table. Lost.

The resolution was then adopted.

Mr. Eastes laid on the table a resolution calling on the banks of the State to report the amount of money held by them on deposit, the number of depositors, and the rate per cent paid.

Mr. WATRAINEN called up his resolution disbanding the military companies organized contrary to the present militia law.

AFTERNOON SESSION.

AFTERNOON SESSION.
THE PROHISTORY LOVOR MILL.
The House met at 4 o'clock, when the temperance bill was taken up in committee of the whole, Mr. Bacthford in the chair.
Mr. Lawronr opened the debate, with an elequent speech in favor of the bill, and moved to reconsider the vote of yesterday, restricting the profits of the town dealers under the proposed act to 25 per cent.
Means: Gates, Leigh, Rhodes and others spoke, but without coming to a vote, the committee rose and reported progress.

A motion made to have the bill made the special order for to morrow evening, was carried by a two thirds

order to to the second of the

in order to carry the adjournment. After a long time consumed in talking, calling ayes and noes, &c., Mr. O'Keefe's motion was lost, and the House adjourned.

Mr. RICKERSON introduced a bill to "secure the purity of elections," or at least so designated by its title. It provides that every person who shall accept, or agree to receive, and every person who shall accept, or agree to receive, and every person who shall accept, or agree to receive, and every person who shall accept, or agree to receive, and every person who shall accept, or agree to receive, and over person who shall accept, or agree to receive, and every person who shall accept, or agree to receive, and every person who shall accept, or agree to receive, and offer on the gift of the propels shall be deemed guilty of bribery, and upon conviction shall be deprived of his vote at any general or special election for ten years.

Thus report was received. The details are of no general interest. It recommends the removal of the powder magazine as hazardous to life and property, and a ungests the propriety of placing it on some island contiguous to the city. The report urges the necessity of supplying the militia of the State with good and efficient arms, and ests forth the inadequacy of the present supply of camp equipage, ammunition, &c. The Commissary states that ill bealth has for some time interfered with the active discharge of the duties of his office, and pays a compliment to the real and efficiency of his assistant, Colonel J. H. Ebbard Ward.

Mr. RAIMOND introduced the bill to dispose of the Quarantine, and for the appointment of emigrant and hospital physicians, and the building of a floating hospital. The bill empowers the Commissioners of the land Office to dispose of all the property on the island occupied for quarantine purposes. It provides that the proceeds of such sale, after payment of expenses, &c., shall be used to defray the cost of building the floating hospital, the ballance to be paid into the treasury. The Commissioners ashall fi

was commended.

Mr. Woran's moved to indefinitely postpone the subject.

Mr. A. G. Williams trusted the invitation would be accepted. It was a usual compliment, and useful, in enabling the members to understand the noble character of the charitable institutions of that city. Probably not one in ten of the members have ever visited those institutions. They cannot, therefore, act as intelligently as they otherwise would, when questions relating to them come up. Mr. W. urged his views at length.

Mr. Hill opposed the acceptance of the invitation, because the Legislature was not sent here to waste time in jaunts and junketings. Business was pressing upon the House, and it should be attended to. The visit might be pleasant; but duty forbade it.

Mr. Ruoriss thought the invitation might be accepted with propriety if it be beyond the usual day of adjournment, and if no wines are furnished.

Mr. Okment thought it would be well to accept this invitation. Nothing would be lost to the people if their representatives allowed themselves more recreation. He answered some of the arguments urged against accepting the invitation.

Mr. Muxnox would be willing to accept this invitation,

representatives allowed themselves more recreation. He answered some of the arguments urged against accepting the invitation.

Mr. MINKOK would be willing to accept this invitation, if for no other reason, to show that the people's representatives can behave themselves on occasions like that proposed.

Mr. MUNDAY hoped the invitation might be accepted. The visit would be alike profitable and interesting to the members.

Mr. HEADLEY did not care personally whether this invitation was accepted or not; but he thought it improper to pass obloquy upon the gentlemen who had proffered the invitation.

Mr. WATEREURY did not think the Ten Governors had a right to expend \$1,500 for the purpose proposed. They could use that sum more appropriately.

Mr. AITEKEN said this appropriation would not be taken from any charitable fund, but from a contingent fund. He repelled the imputation improperly cast upon the members of the last Legislature.

Mr. Maguirs had no fear that the members of a Maine Law House would, they should, by all means, yote against they would, they should, by all means, yote against

Law House would disgrace themselves. If they thought they would, they should, by all means, vote against this resolution.

Mr. Baker said the House would, before the session closed, be called upon to make appropriations to some of the institutions members were invited to visit. It was quite proper, therefore, that the invitation should be accepted. Mr. B. also repelled the charge that the last visit of the Legislature was disreputable.

Mr. Cocas moved that the expense of the visit be borne by the individual members.

Mr. S. B. Coca deemed the invitation eminently proper, and its acceptance right.

Mr. Cocas moved that the present Legislature could visit New York without disgracing themselves or the State.

Mr. PECK spoke in favor of accepting the invitation. Mr. STRENINS had heard no good argument in favor of accepting this invitation, except that it would afford members information. But from the hasty manner in which this visit must be gone through with, very little real useful intelligence could be acquired. Besides, the House had no time to spare for this purpose—a purpose which, judging from the tone of the papers last year, was not creditable to the House.

Mr. O'KENTE moved the previous question. Carried; and the invitation was accepted.

Adjourned to 4 P. M.

THE MAYOR AND THE LIQUOR DEALERS.—We understand that a number of persons were brought before the Mayor yesterday, charged with selling liquor on Sunday, in violation of the statute. Twelve licenses were revoked, and the Mayor warned all who were brought before him that he would enforce the law in every instance. Among others, Bill Poole, keeper of a bar room corner of Broadway and Howard street, was brought before his Honor, and on being questioned, acknowledged that he had an license in his own name, and that he was doing business on behalf a friend of his, named Cunningham, who is of course the responsible party. The Mayor dismissed Poole with a severe reprimand for his being in any way connected with the violation of the Sunday liquor law, it is understood that a number of other dealers are to be brought up to-day to answer to charges of selling liquor illegally.

We make the following interesting extracts from the Bermudian of that date:—

AGRICULTURAL PROSPECTS.

We ganced briefly, in our last, to the active operations of our agriculturists at the present time. Not less than 6,600 barrels of potatoes for planting have been already imported from America; and we are satisfied we shall be within the mark when we state, that the entire aggregate of that article of importation for agricultural purposes will, before many weeks have passed away, reach at least 7,000 barrels. If the like prosperity should attend the spirited efforts of our planters in the present year, which crowned their labors in the last, it will really be impossible to over estimate the substantial benefits that must thereby accrue to the colony at large. While on this topic, we cannot omit communicating a piece of pleasing information to the cultivators of arrowroot Several accounts from London, by last mail, state that the price of Bermuda arrow root had risen to is. 4d, per lb.; and we learn that some persons have received information that sales of the same article had been effected at 1a, 3d. We congratulate the cultivators of arrow root throughout these islands upon the excellent prospects before them. The information has come at the "incide of time," when preparations are in progress for sending the new crop to the mill.

CHANGE IN THE COMMAND OF THE TROOPS.

We understand that the important post of commandant of Her Majesty's forces in these islands, to which Colonel Hemphill, of the 26th regiment, accaded on his arrival have, in consequence of his being the senior military officer in Bermuda, has passed into the hands of his Excellency Colonel Murray. This change has arisen from the recent promotion of the Governor to the rank of his Excellency Colonel Murray. This change has arisen from the recent promotion of the Governor to the rank of his higher military officer of the rank of a colonel, he shall, in virtue thereof, assume the command of the troops. Col. Hemphill is also a full

port, passes into retirement, we learn, upon the pension of £114 a year—a sum barely over one-third of his salary as head of the Customs Department here; and G. C. Harvey, Esq., late Copptroller of Customs at St. George, receives the retiring pension of £50 a year—just one-fourth of the salary which that gentleman enjoyed while in office. The economical disposition of the present age stands out conspicuously in these pecuniary arrangements.

stands out conspicuously in these pecuniary arrangements.

Instructions were also received by the last packet to trausfer the duties heretofore performed by this Imperial officers of customs to sur coloulal revenue officers. Accordingly his Excellency the Governor has appointed the Hon. W. B. Smith Receiver-General, to be Controller of Customs and Navigation I awa at Hamilton; and Alexander J. M. Gilbert, Esq., Assistant Receiver-General, to be Controller of Customs and Navigation I awa at the Port of St. George. The home government, however, in turning over the duties of the offices we have mentioned to our local officials, has omitted to provide any pay whatever for the work to be performed—a not very pleasant fact to the gentlemen concerned, we should say.

DISTURBANCE AMONG THE LONGSHOREMEN.

Yesterday afternoon a disturbance of rather a serious nature took place at Pier 6, North River—a party of Longshoremen having assailed the hands of the canal boat Sultan and the lake boat Gov. Fish. The cause for boat Sultan and the lake boat Gov. Fish. The cause for the assault arose from the arrangements relative to the loading of these crafts entirely unsatisfactory to the 'Longsloremen. William Clapper, of the Sultan, was, without any provocation, knocked down and trampled upon by a party of fifteen or twentymen, who threatened by their actions to kill him. The disturbance having assumed a serious form, information of the riot was depatched to the Chief's office from the First ward sta-tion house.

assumed a serious form, information of the riot was despatched to the Chief's office from the First ward station house.

A posse of men was thereupon sent to the scene of the disturbance; but before they had arrived there the rioters had ran away.

Officer Stoughton, of the reserve corps, succeeded in arresting a man, named Patrick Hearney, who was identified by Mr. Clapper as one of the rioters. The prisoner was conveyed before Justice Connolly at the lower police court, where a complaint was made against him for assault and battery and riot. Mr. Clapper states in his affidavit that as he was coming from the ship Empire State, alongside of which his canal boat lay unloading, he was followed by a party of about fifteen men, using very threatening language towards him; that one of them, the prisoner, Patrick Hesrney, came up behind him, struck him on the head and knocked him down; that he was, thereupon, besten and kicked by these men in a severe manner; and that the entire party conducted themselves in a very riotous manner. About three o'clock the same conduct was repeated, he says, by these men, who assailed him as before. Mr. Stephen Hays, of the lake boat Gov. Fish, corroborated the evidence o' Mr. Clapper, in every particular, be having been his companion during the riot. Justice Connolly held the prisoner to bail in the sum of \$600 to answer the charge of assault and battery and riot. He was committed to the Tombs in default of bail. No further arrests have yet been made, on account of the great difficulty encountered by the complainants in identifying the assaulants, as the great body of rioters were entire strangers to them. However, it is hoped that the disturbers of the public peace in this case will be soon arrested and dealt with according to law.

Yesterday afternoon Christopher A. Keene, charged with having forged three certificates of Texas State bonds and othering the same for sale to a wall street order, for the sum of \$1.500, was bailed out of prison by the Hon. AN ALLEGED HOTEL THEF.

For some time past some individual has been in the habit of stealing hats and overcoats from the New York Hotel while the boarders were partaking of their meals. This person, who caused the proprietors of the hotel a great deal of trouble, managed to clude the eyes of all those who had been on a sharp lookout for him. However, a trap was laid for him: an overcoat was placed in such a situation that it could not be carried off without attracting the attention of a watcher that had been stationed for the purpose, if possible, of detecting the thief. The coat had not been long hanging in the ball before a man named William Lewis, alias Luce, made his appearance, and going up to the article of clothing, deliberately took it down, and was preparing to put it on when he was arrested by Robert Houston, one of the proprietors of the botel. The prisoner was taken in custody by officer Corsa, who conveyed him before Justice Davison, at the Second district police court. Here, on searching him, a pawn ticket for a gold watch was found in his pocket. The watch was recovered from the pawnbroker and placed in the hands of Mr. Murray, clerk of the court. It is a hunting case lever, and has on one of the cases an engraving of a ship of rather ancient model under full sail. An owner is wanted for the valuable, who can obtain the same by inquiring for the clerk of this court. The prisoner was committed to answer the charge of petit larceny, the coat not being worth mere than ten dollars.

A SON CHARGED WITH STEALING \$600 FRON HIS FA-THER.

THER.
Yesterday officer Farrington arrested a man named Yesterday officer Farrington arrested a man named John Cronin, on a warrant issued by Justice Brennan, of the Second district police court, wherein he stands charged with having stolen \$500 from his father, Michael Cronin, of No. 292 First avenue. It appears from the complaint made by Mr. Cronin, he had an account with the Bowery Savings' Bank to the amount of \$500 and upwards; that a few days ago his son John obtained possession of his bank book, took it along with him to the Bowery Savings' Bank and drew the above mentioned sum out of this institution. The father states in his afficavit that the son on being accussed of the act, admitted his guilt and declared himself a penitent. All of the money Cronin procured was found in his possession when arrested. The presiding magistrate at the Jefferson Market police court committed the accused for trial in default of \$1,000 ball.

ARREST FOR YORGERY.

ARREST FOR FORGERY. Yesterday afternoon a man named Charles A. Cornel Yesterday afternoon a man named Charles A. Cornel was arrested on a charge of having forged the endorsement of Hawes & McKellop, to two checks, amounting to the sum of \$260, for which he obtained the money. It appears that the accused called at the office of John Thempson, broker, corner of Broadway and Wall street, and presented the two checks for payment—one for sixty dollars, drawn by F. M. Sheppard, of the Minor India Rubber Company, to the order of Hawes & McKeller, and the other to two hundred dollars drawn as India Rubber Company, to the order of Hawes & McKellop, and the other for two hundred dollars, drawn on the Merchants' Exchange Bank, by Lee, Murphy & Co., also made payable to the order of Hawes & McKellop. The checks were represented by Cornell to have been duly endorsed, and the money was paid. It strewards appeared that the endorsements were forgeries, and a police officer was sent in quest of Cornell, who was arreated yesterday. He was taken before Justice Bogart, at the lower police [court, who committed him for examination.

CHARGE OF ATTEMPTING TO KILL A POLICEMAN. On Tuesday night a disturbance occurring in an alley way running out of Water street, in the Fourth ward, way running out of Water street, in the Fourth ward, officer smith, of this ward, proceeded up the dark and narrow passage for the purpose of arresting one of the disorderly characters. He soon came in contact with a man named Michael Murphy, who pushed the policeman, and a struggle ensued, in which Murphy attempted to strike the officer with a hatchet. Some citizens seeing the situation of the officer, obtained the assistance of other policemen, who arrived just in time to prevent Murphy from striking officer Smith with the deadly weapon. The prisoner was then secured and taken to the station house. Yesterday he was brought before Justice Connelly, at the lower police court, who committed him to prison for felonious assault, in default of \$500 bail.

CHARGE OF BURGLARY.

Officer Minor, of the Tenth ward police, arrested a young man named Wm. Vetereo, charged with having burglariously entered the store of Tophar Pearsall, 409 Second avenue, and stealing therefrom a blanket and buffalo robe valued at \$20. The prisoner was found en-deavering to dispose of the property in the Bowery, where he was arrested by the officer. Illness of Judge Mason.

The following note, says the Richmond Enquirer, conveys the only rehable information of the condition of Judge Mason which has been received in this country.—

RICHNOND, Jan. 22, 1856.

Messrs. Editors:—Will you do me the favor to publish the subjoined extract of a letter received this morning from Dr. Bigelow, of Paris, the family physician of our friend Judge Mason? While it is not so fully satisfactory as his numerous friends could desire, and does not disclose a condition free from all danger, it is calculated to relieve their immediate rears, and afford them strong and well-founded hopes of his gradual improvement and final restoration to a comfortable degree of health. I am sure his many friends in this State, and other parts of the Union, will be greatly relieved on seeing this statement, the most reliable which has met the public eye.

I am, with much respect,

NEW JERSEY ENOW NOTHING STATE CONVENTION.

Two branches of the mysterious order of Know Nothings have been in existence in the State of New Jersey, viz., the National and the Bordentown organizations. It being essential for these to unite in one body, and some other matter appertaining to the welfare of the American party requiring attention, a State Convention has been decided upon to effect this fusion, and otherwise advance the purposes of this powerful body. It has been stated, upon the authority of the Trenton correspondent of the Newark Daily Advertiser, that this convention was to meet in Jersey City yesterday. It has also been suggested, and the idea is extensively favored, that the American party form in public, and casting off the veil of secrecy, display themselves in their strength to their opponents.

strength to their opponents. THE TWENTY-NINTH SENATORIAL DISTRICT.

The People's Convention met at Canandaigua on the 23d inst., and nominated Hon. Chester Loomis for the vacant scat in the Senate of this State. Mr. Loomis is vacant seat in the Senate of this State. Mr. Loomis is said to be a soft shell democrat. He was elected to the Senate in 1834, and held the seat for four years. He has also held the office of county Judge of Ontario. A whig Senatorial convention was held on the same day at Lima, in Livingston county, which decided to make no nomination, and adopted Mr. Loomis. The Know Nothings will probably nominate Mr. S. V. R. Mallory, a lawyer of Canandaigua. Mr. Mallory is a silver grey whig, and represented the Second Assembly district of Ontario county in the last Legislature.

DEMOCRATIC STATE COMMITTEE. The Democratic State Committee of which Augustus Scheil is chairman, will meet to-day in Albany.

The following is a copy of a petition circulating in Ohio:—

To the Hon. Representatives of the United States of America in Congress assembled:

The undersigned petitioners pray your honorable body to set apart a portion of the national territorial domain upon which to colonize the free negroes of the United States.

We also petition your honorable body to set apart other portion or pertions of the public lands, the proceeds of which, either by exchange or otherwise, shall be directly applied to the purchasing of such negroes as are or may be born prior to the year 1860, and held in bondage in the United States, and colonizing them, with other free negroes, upon said lands set apart as aforesaid.

We, your memerialists, presume not to define the conditions of such legislating but nope that by the wisdom which characterises your honorable body, you will efficiently legislate in behalf of said negroes; and we, your petitioners, as in duty bound, will ever pray.

CONSCIENTIOUS JURYMEN.

CONSCIENTIOUS JURYMEN.

Three of the jurors who were sworn to decide in the case of the U. S. District Court vs. Sherman M. Booth, for aiding and aberting in the escape of the slave Glover, at Milwaukie, on the 11th of March, 1864, have adopted and published the following resolution:

Resolved, That while we feel ourselves bound by a solemn oath to perform a most painful duty, in declaring the defendant guilty of the above charge, and thus making him liable to the penalties of a most cruel and odious law, yet, at the same time, in so doing, we declare that he performed a most noble, benevolent and humane act, and we thus record our condemnation of the Fugitive Slave law, and earnestly commend him to the clemency of the Court.

A STATE AUDITOR IN COMFORTABLE CIRCUMSTANCES. A STATE AUDITOR IN COMPORTABLE CIRCUMSTANCES

The following letter of Auditor Dunn, of Indiana, to the Legislature, is the coolest piece of official impudence

we have seen for a good while:—
OFFICE OF AUDITOR OF STATE, }
INDIANAPOLIS, Jan. 17, 1855.

To the Honorable, the Speaker of the House of Representations.

INDIANAPOLIS, Jan. 17, 1855.

To the Honorable, the Speaker of the House of Representatives:—
SIK—The following resolution passed by the body over which you have the honor to preside, has been received at this office.

Resolved, That the Auditor of State report to this House, prior to the expiration of his term of office, the full amount that he has received as fees as said Auditor, by and through the General Free Banking law of this State, embracing all his fees, of whatever kind, received by him under said law.

Without stopping to inquire into the right the House of Representatives have to make a peremptory call on any public officer for a detailed statement of his business transactions, or to report the amount of fees received, when no fees are fixed by law, but when it is a mutual arrangement between parties interested, in must most respectfully decline complying with their request, as much more important business of the State requires all my time and labor for the few days I shall remain in cffice. After I shall have retired to the ranks of a private citizen, it will give me pleasure to give any honorable member all the information I may possess on the subject. In the meantime, to quiet the anxiety of any friend, I will remark that I am in as comfortable a situation as any "old liner" could well be, who was badly beaten at the late election. Very respectfully yours, JOHN P. DUNN, Auditor of State.

The Richmond Enquirer announces authoritatively that the Hon. Henry A. Edmundson, the present repre-

that the Hon. Henry A. Edmundson, the present representative in Congress from the Twelfth district of Virginis, declines to be a candidate for re-election.

The Prohibitory Liquor law of New Jersey has been
amended so as to provide for the submission of the act
to the voters of the State, at a special election, to be held
on the first Tuesday in October next, instead of on the
day of the general election as originally reported.

The Whig State Convention of Connecticut, will be
held in Hartford on the 28th of February.
